

Marcie

Author: Howard Wright

DGDGBD, 'Joni' Tuning: D57543

This transcription is the author's own work and represents their interpretation of the song. You may only use this file for private study, scholarship, or research. Copyrighted material on this website is used in accordance with 'Fair Use'

All chord shapes used in the song are given at the end. For each line of tab, the accompanying words are written underneath, and the chord names on top. I've tried to line up the words with the tablature, but it doesn't work 100%.

This is a one-guitar version of the song. The original has two guitars, though they play the same thing most of the time. The best way to learn the piece is to get the tuning, then try out the chord shapes. Get used to changing between the chord shapes, then start reading through in detail to get the picking pattern sussed. The rhythm for the picking is mostly eighth notes; most bars have eight notes/chords, so if you start out with a steady eighth notes to the bar you should pick it up fairly easily.

The patterns for the all the verses and the two middle eights are basically the same throughout the song. There are a few small variations that I've included; for the most part though, the later material is just a copy of the earlier stuff.

Have fun!
